

Better data at your fingertips

The Problem

- Geoscience data are locked onto inaccessible media
- Information and metadata will be lost
- Data has value (that's why you're storing it, right ?)

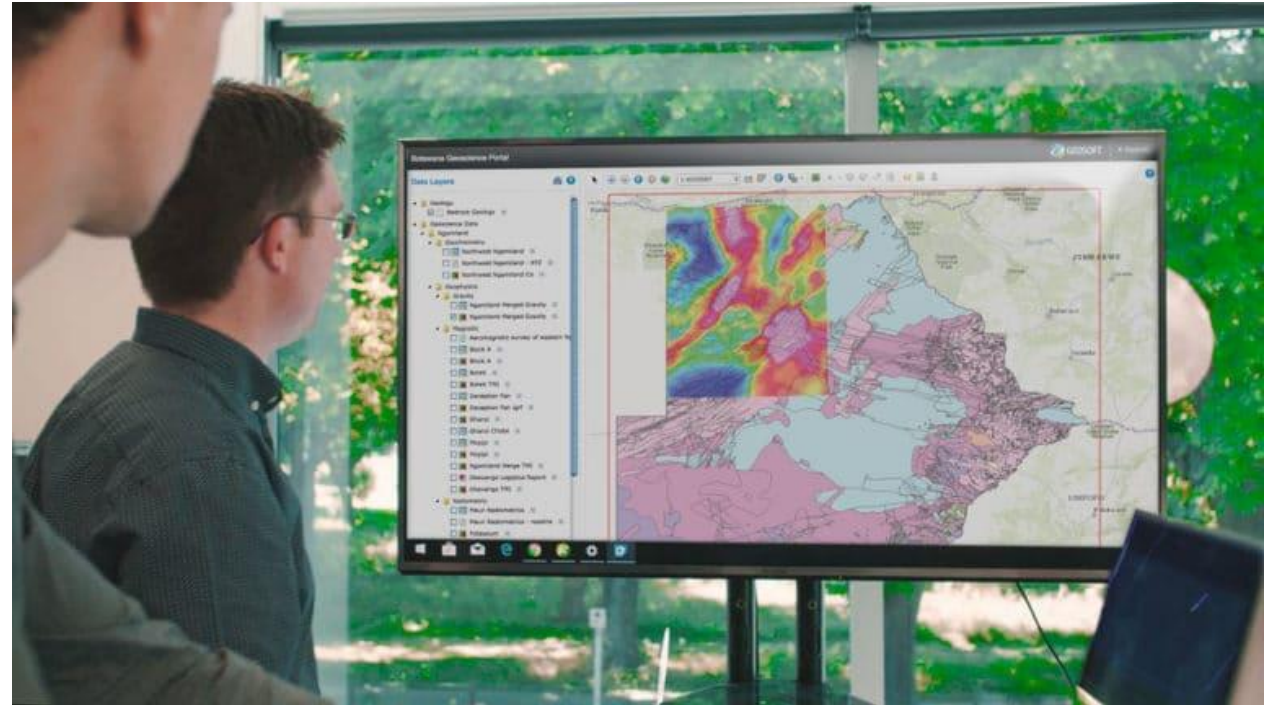

The Solution

- Experience Seismic data expertise
- Capability Comprehensive tape drive inventory
- Speed Dedicated high-speed data links

The Benefit

- Compliant & error-free with metadata attached
- Integrated with your data library
- Easily accessible from the cloud, disk or tape

Who we support

- Data handling and User support for the UK NDR
- Seismic Processing companies
- Oil and Gas companies
- Renewable Energy projects

**Better data
at your
fingertips**

Thank you for your attention
