

DARC ARKANE TECHNOLOGY

CNC on Slickline: Using Innovation
and Automation to Cut Tubing, Cut
Costs and Cut Footprint

An innovative and flexible
downhole pipe cutter that
operates on E-line, Slickline,
Digital Slickline or Coil Tubing

3-AXIS TUBULAR CUTTING*

FEATURES AND BENEFITS

- Uses alkaline batteries
- Gives CNC grade cut finish
- Cuts from tool OD (2 7/8") out to 5.5"
- Built in Safety features for activation/retrieval

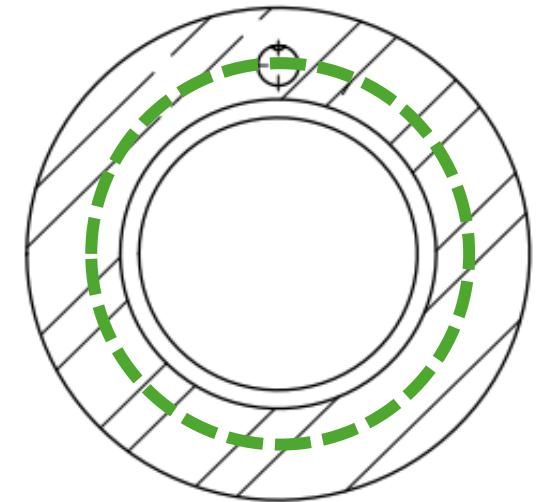

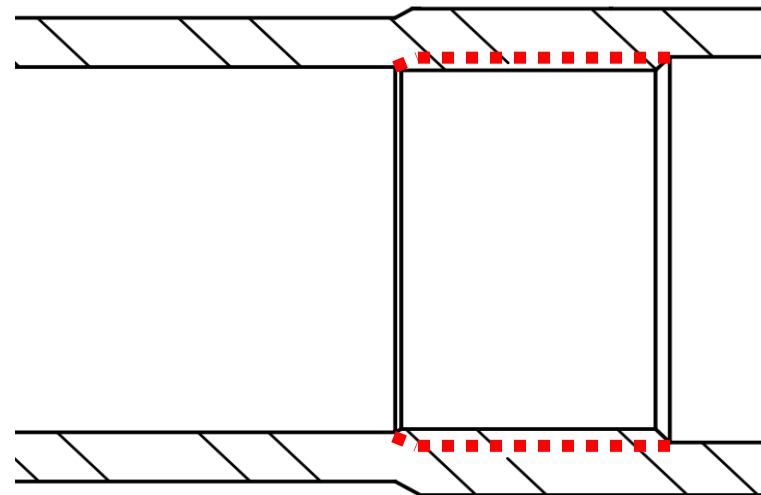

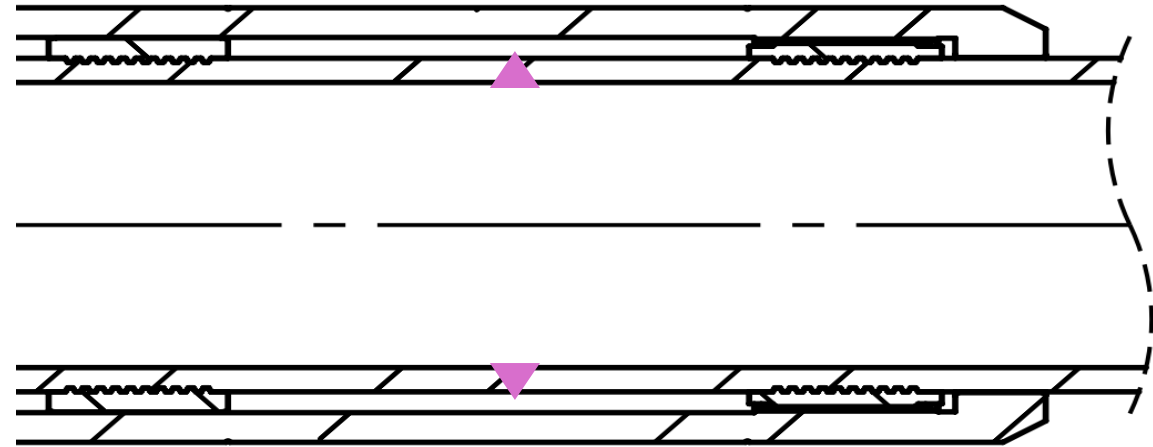

- Electromechanical cutter without e-line requirement
- Programmable interlocks ensure activation only at cutting depth
- No dangerous goods
- Stuck tool can be retrieved with overpull

BEYOND TUBING CUTS

- Cut and release packers ▲
- Safety valve communication cuts - - - - -
- Nipple or profile milling ······
- Honing and localised scale/corrosion removal
