Seismic2025

UNLOCKING THE SUBSURFACE

30 APRIL – 1 MAY 2025, P&J LIVE, ABERDEEN

CALL FOR ABSTRACTS – DEADLINE 13TH DECEMBER

Seismic is a leading and unique event in Aberdeen, focussing exclusively on the role of seismic and geoscience in the energy lifecycle over two days of technical talks. Seismic 2025 highlights seismic as the key analysis tool to unlock the subsurface, from Oil and Gas exploration through development, decommissioning AND in new energies like wind, geothermal and carbon storage.

The event's primary focus is bringing the seismic and geophysical community together, renewing old acquaintances and fostering new ones. It's a great opportunity to showcase new technology, share lessons learned, and communicate case studies, in a supportive, curious and friendly environment.

The committee particularly welcome abstracts on the following themes:

- Full-cycle seismic
- Reservoir characterisation & quantitative interpretation
- Near-field exploration and enhancing production of existing assets
- New and novel technology and innovation for the changing energy mix
- Seismic in decommissioning – the crucial role seismic plays in well decommissioning
- Shallow seismic, including for offshore wind and geohazards
- Carbon storage projects, including site screening, characterisation, development and monitoring
- Machine learning and automation in subsurface workflows
- Use of geophysical data in other energies, such as geothermal and nuclear
- Non-seismic methods including gravity and magnetics
- Traditional use cases and adapting traditional approaches.

For any queries, contact the Events team on aberdeen.events@spe-uk.org or 01224 646311.

Do you have case studies or technology examples to share with our audience? If so, we invite you to submit a 200-word abstract for consideration for the 2025 conference programme. If you have a geophysical paper that does not fall easily into these categories, but you believe it will be of interest to our audience, please also consider submitting for our technical committee to review.

SUBMIT YOUR ABSTRACT

Please submit your abstract via [this form](#) or by scanning the QR code.

SEISMIC 2025 – SPONSORSHIP OPPORTUNITIES

SPE Aberdeen and GESGB are not-for-profit organisations and raising sponsorship is vital not only for the successful delivery of the conference but to enable re-investment back into the industry. By supporting this event, not only are you providing an important knowledge sharing and training opportunity for the industry, but you are also supporting our future generation of young engineers and geoscientists through providing bursaries. Thanks to the generosity of our sponsors and exhibitors over the last couple of years we have been able to make the conference more accessible by lowering the ticket price, offering free places for Early Career Professionals, and making attendance more affordable for universities.
